

"When I first started college, I found myself confused and behind. I was anxious when asked about my future goals and career plans. After visiting the Career Center, I was recommended the UGA Mentor Program. This program changed the whole trajectory of my college experience."

"Through the amazing Quick Chat feature available to students, I got to learn about the amazing fields that I could potentially strive in, and of course I learned about the fields I did not want to go into. I went from having no idea of what I wanted to pursue to narrowing my potential areas of study to just a few. This Quick Chat feature has led me to find an amazing mentor."

"The UGA Mentor program's 16-week mentorship has been an amazing opportunity for me. In these many weeks, my mentor and I are building a relationship, setting goals, and creating plans for me. Overall, this program has been the best support system given to me, and because I find this program so helpful I continuously recommend it to my peers!"
